My Token Board

Pick a reward, put it in the box, then earn a token for each small step.

How to use it

1. Let the child choose the reward first and place the card in the box.
2. Name the one behavior that earns a token: "Token for each page you finish."
3. Give the token right after the behavior, with short, specific praise.
4. When the board is full, give the reward right away. Then start again.
5. Start with 3 tokens. Add spaces or time only when it is easy.
6. Never take earned tokens away. A token earned stays earned.
7. Fade slowly: more tokens per reward, then praise and natural rewards.
